
3a Held-out bead observation and prediction: orthogonal MIPs
XY = max over z; XZ = max over y · right column = difference of projections, not max of signed error
XY MIP · Corrected observation
XY MIP · Frozen prediction
XY MIP · Difference of MIPs
XZ MIP · Corrected observation
XZ MIP · Frozen prediction
XZ MIP · Difference of MIPs
Local x (µm)
Local y (µm)
Local z (µm)
Relative image units
Signed Relative image units
