
5a Frozen reconstructed source versus paired reference: orthogonal MIPs
XY = max over z; XZ = max over y · right column = difference of projections, not max of signed error
XY MIP · Reference
XY MIP · Frozen estimate
XY MIP · Difference of MIPs
XZ MIP · Reference
XZ MIP · Frozen estimate
XZ MIP · Difference of MIPs
Local x (µm)
Local y (µm)
Local z (µm)
Relative source coefficients
Signed Relative source coefficients
